Certificate Managementユースケースを新たに契約すると15,000ユーロ、
他のユースケース(PCF等)を契約すると30,000ユーロを給付（日本企業も対象）

2026年のCatena-Xユースケースには1万5000ユーロまたは3万ユーロ

公式のIDSA Data Space Acceleratorプログラム、および適格性確認のための当社T-Systemsページ

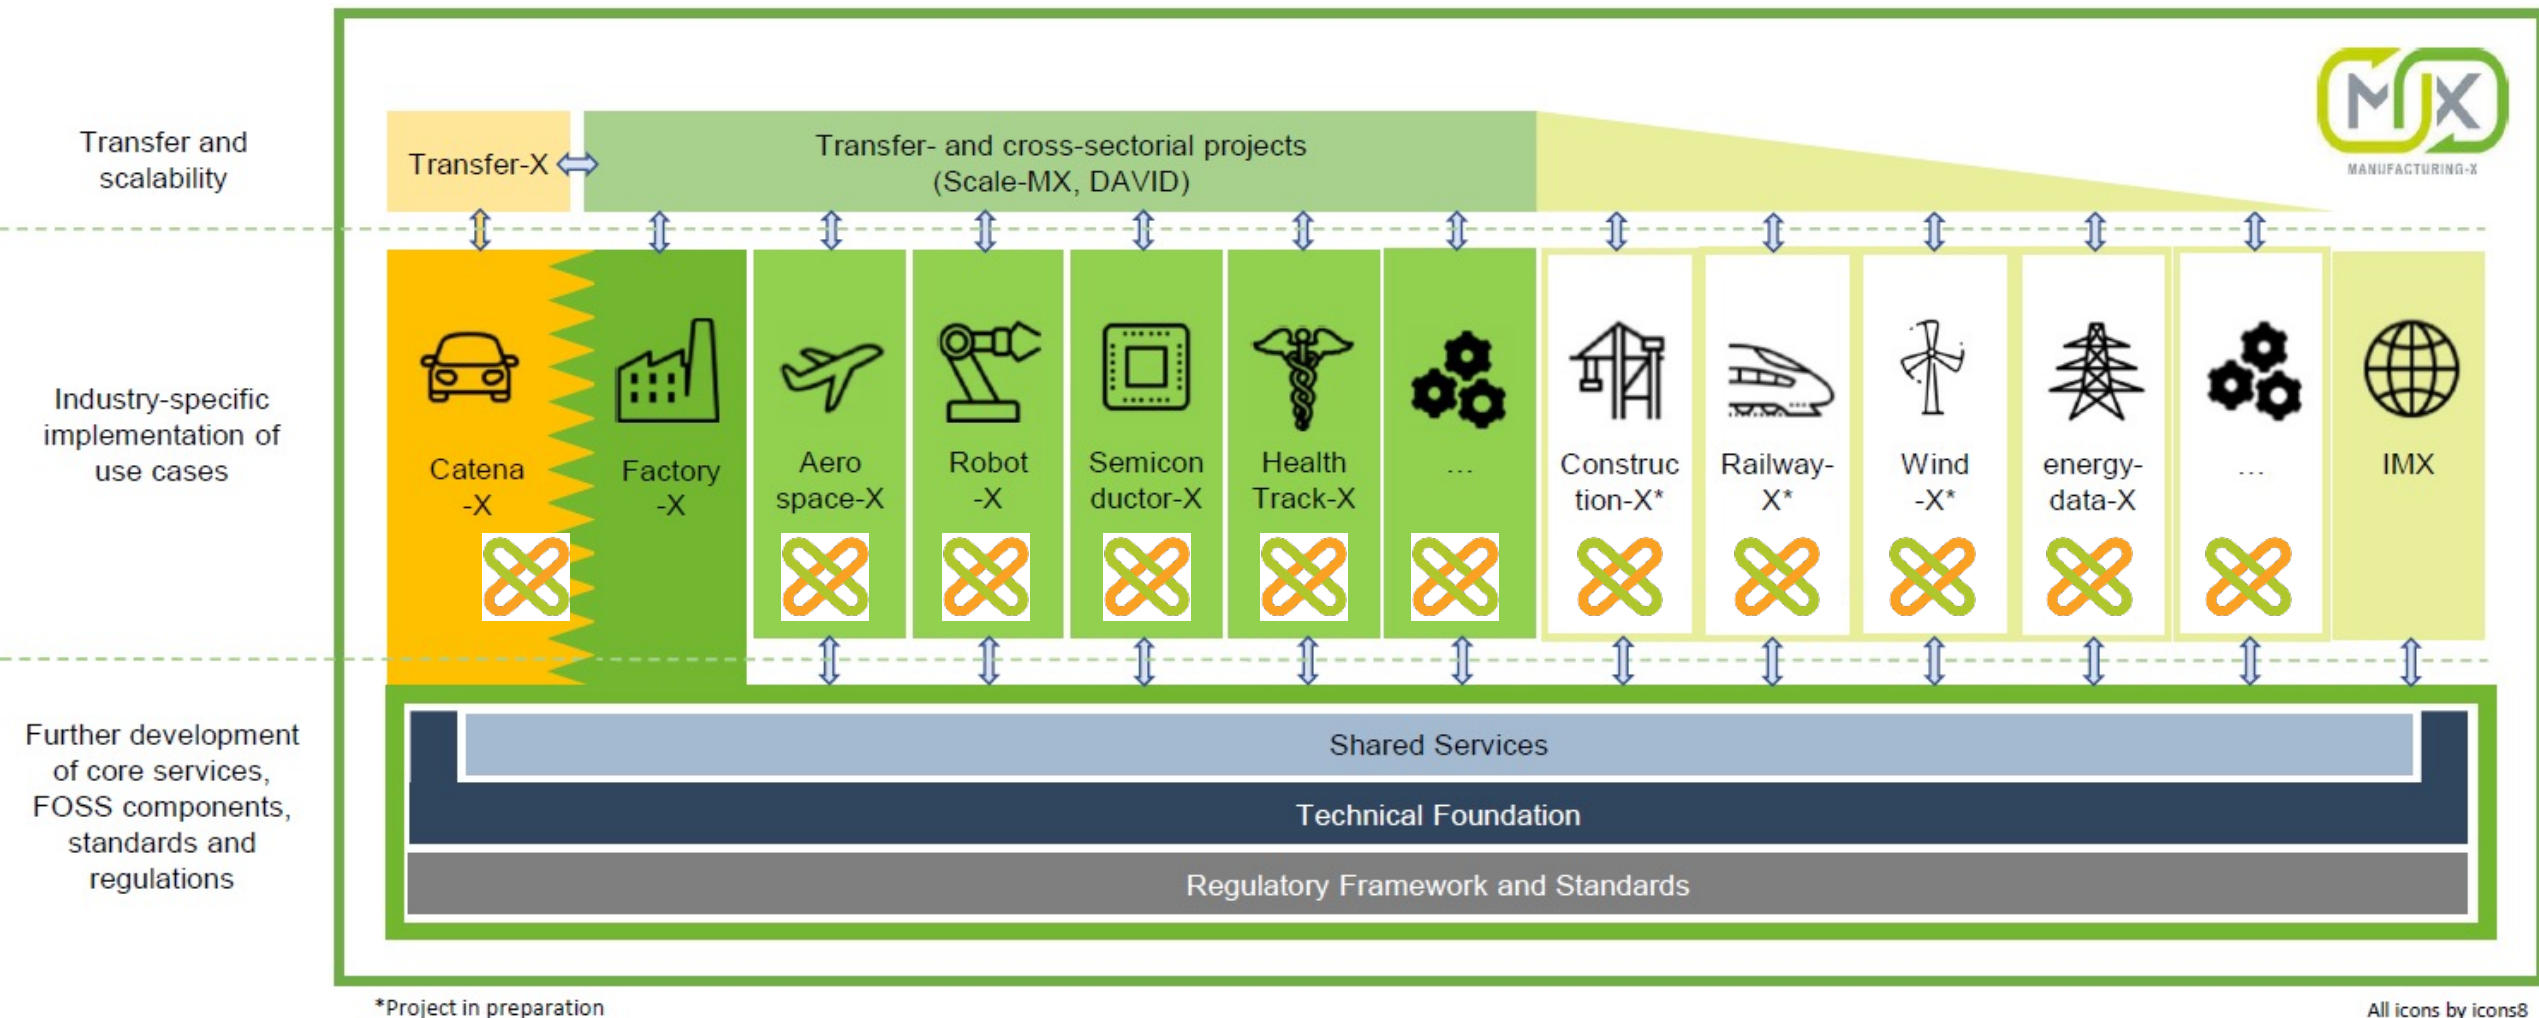

The screenshot shows the official landing page for the Data Space Accelerator program. At the top, it features the 'INTERNATIONAL DATA SPACES ASSOCIATION' logo and navigation links like 'Learn more', 'EN', 'Process-Dashboard', and 'Apply Now'. The main heading is 'Data Space Accelerator' in large blue letters. Below it, a subheading reads: 'A publicly funded study to lower the entry barriers into the Catena-X data space'. The text explains that joining a data space is challenging for SMEs and Mid-Caps, and the accelerator exists to lower this barrier. It mentions that participating companies receive financial remuneration for their onboarding effort and support to implement use cases in the Catena-X data space. A diagram on the right shows a path from 'Circular Economy' through 'Data Driven Quality', 'Traceability', and 'Digital Product Passport' to 'Demand & 1 Manager'. Logos for the European Union and the German Federal Ministry for Economic Affairs and Energy are also present. At the bottom, there are sections for 'Webinars & Success Stories' and three language options: English and German.

Official landing page

The screenshot shows the T-Systems eligibility check page. It features the T-Systems logo and navigation links like 'AI & Data', 'Solutions', 'About', 'Contact us', 'AI Agents', and 'Dataspace Accelerator'. The main heading is 'Dataspace Accelerator Program'. Below it, a subheading reads: 'The Data Space Accelerator is a large-scale study investigating how industrial dataspace develop when a critical mass of companies participates in productive data exchange. It enables companies, primarily SMEs, to participate in the Catena-X dataspace through guided onboarding and concrete use case implementation, with remuneration based on verified results where study requirements are fulfilled.' A diagram on the right shows a flow from 'Your company' through 'Catena-X Data Space' to 'Your company', 'Suppliers', and 'Customers'. Below the diagram, there are two buttons: 'Check your payout eligibility' and 'Register your interest'. At the bottom, there are four sections: 'Potential remuneration' (Up to EUR 15,000 for one validated use case; up to EUR 30,000 for two validated use cases, subject to program rules), 'Target audience' (Primarily SMEs and eligible companies preparing to participate in Catena-X, established in Germany or the European Union. Participation is open to companies of all sizes provided requirements are met), 'Core objective' (Real, productive data exchange — not a pilot or proof of concept), and 'T-Systems role' (Preferred onboarding and operations enabler with a commercial model designed for low-stress adoption).

program steps

1

申請とパスの選択

Submit your interest via the application form and choose one or two use cases (path 1 or 2).

2

審査と承認

Your application is reviewed; approval is confirmed by email.

3

ベースラインと2つ目のユースケース

Complete the baseline survey; for path 2, select your second use case.

4

データスペースへのオンボーディング

Guided Cofinity-X onboarding into the productive Catena-X environment; you receive your Business Partner Number.

5

初回のデータ交換

Set up the connector, share a first data asset via EDC and pass the Cofinity-X check to issue your Data Readiness certificate.

6

報酬の受領

Submit your Data Readiness certificate to the coordinator and claim your remuneration.

T Systems how we support you

アドバイス

We guide you on path selection, use-case scope and a clean application.

オンボーディング

We help with Catena-X BPN and registration with Cofinity-X

接続と統合

Our certified Connect & Integrate solution runs your first productive data exchange.

ユースケース

Certified apps for CCM, PCF, Traceability & Quality — ready to scale.
